

N.E.W.G.L.S.F.

Position on the Commercial Whitefish Trap Net Season Extension

Dear Natural Resource Committee,

The overwhelming testimony at the Public Hearings was against Rule FH-46-02. This rule is opposed by the Wisconsin Wildlife Federation, the Wisconsin Federation of Great Lakes Sport Fishing Clubs, the Conservation Congress, the Northeast Wisconsin Great Lakes Sport Fishermen, Manitowoc County Fish and Game Association and the Green Bay Area Great Lakes Sport Fishermen and we are still all in **“Opposition”** to the Whitefish Season Extension, but since the WDNR Board has once again **“Made The Wrong Decision”** and **“Not Listened To The Voice Of The People”**, they have forced us to attempt to negotiate some sort of compromise with the Commercial Fishery in order to save the lives and equipment of 1,000’s of sport fishermen in our area.

We had over **1,411 written and oral comments** in **“Opposition”** to this rule change at the Public Hearings, mainly because of the **“User Conflict – Safety Issue”**. Only 8 written or oral comments in favor of FH-46-02 were provided at the last hearing. This testimony is being submitted to you at this time since the WDNR failed to provide you with the true **“Public Opposition to Rule FH-46-02.”**

We, the Great Lakes Sport Fishermen of Zone 3, especially those **33,754 individuals** who fish for Trout and Salmon on Lake Michigan in Manitowoc and Sheboygan Counties and paid the Department of Natural Resources a total of **\$395,169.25** in licenses and stamps in 2002, are **“Not Unreasonable”** but are extremely upset that we are being forced to give up the only 2 months of the summer, July and August, where we feel safe about not getting caught in Commercial Nets, especially when fishing fog, darkness, or in rough water.

It should be pointed out that the new rule FH-46-02 being brought forward on behalf of the 3 Commercial Fishermen, **reneges on a previously agreed line separating commercial and sport fishing use of Lake Michigan in the Manitowoc /Two Rivers area**, which was put in place back in 1994 to reduce **“User Conflict”**. This new rule places the commercial deepwater trap nets in the heaviest sport fishing area of Manitowoc and Two Rivers during the prime months of July and August. Previously, commercial fishing in the area ended June 28th and could resume after Labor Day to reduce the **“User Conflict”**.

Reluctantly, we have already developed a compromise for the WDNR, who is requesting this Whitefish Season Extension in Zone 3 which reads as follows: **Come back to us in 2 years after the 3 Commercial Fishermen have done the following in an attempt to fill their present whitefish quotas:**

1. **Instruct the 3 Commercial Fishermen to fish the majority of both the Spring and Fall time periods, something they are presently not doing.**
2. **Instruct the 3 Commercial Fishermen to fish the maximum number of trap nets allowed during these two periods, also something they are not doing.**

We know in advance that the 3 Commercial Trap Netters will come back and make the comments that they do not have enough nets, boats, or crew to fish the maximum number of nets. A farmer who purchases another 100 milking cows needs to upgrade his equipment and increase his labor force if he wants to produce more, therefore, a commercial fisherman, who acquires more quota from other commercial fishermen needs to do the same. That is strictly a business decision.

They will also make the comment, that the fall season is too rough or it interferes with other licenses, but the Whitefish Trap Netters in Zone 2 catch more whitefish in their fall season than the entire quota in Zone 3 and they also have chub quotas. This is another business decision on the part of these 3 Commercial Fishermen.

If the 3 Commercial Fishermen have followed the instructions presented earlier and they still have not caught the majority of their whitefish quota, have the Whitefish Trap Netters in Zone 3 come back to the WDNR in 2 years and ask for their **“Season Extension”**. At that time the Sport Fishermen in Zone 3 will agree with a season extension for these 3 Commercial Fishermen and only these 3 Commercial Fishermen in the following location. The area selected for placement of the nets would limit the **“User Conflict”**.

1. **An area located 7 miles north of the Two Rivers pier heads. (North of Straight East of the Raleigh Point Light House**
2. **An area located 3 to 8 miles south of the Sheboygan pier heads.**

“These two 12-14 square mile areas would be the only locations for a Summer Whitefish Trap Net Fishery in Zone 3.” We feel it is better to have 3 Commercial Fishermen travel a little further in summer to tend their nets, than to have the 33,000 plus sport fishermen travel further to get out of the area of the nets.

We still feel this **“Season Extension”** is totally unnecessary, but we are being forced to attempt to negotiate some sort of compromise with the Commercial Fishery in order to save the lives and equipment of 1,000’s of sport fishermen in our area. We hope that the Assembly and Senate Committees will both send FH-46-02 (Clearing House Rule 02-143) back to the Department of Natural Resources, rejecting the entire rule as presented or at the least, instruct the WDNR to work out a compromise that will avoid the majority of the **“User Conflict”** in the Two River, Manitowoc and Sheboygan area. **Something the WDNR has failed to do with the present rule.**

Since the current rule would not have any application until July of 2004, there is sufficient time to do this.

Thank you for your time.
Sincerely,

Mike Rusch
